# PRESENTATION

[www.figueiradesousa.pt](http://www.figueiradesousa.pt)

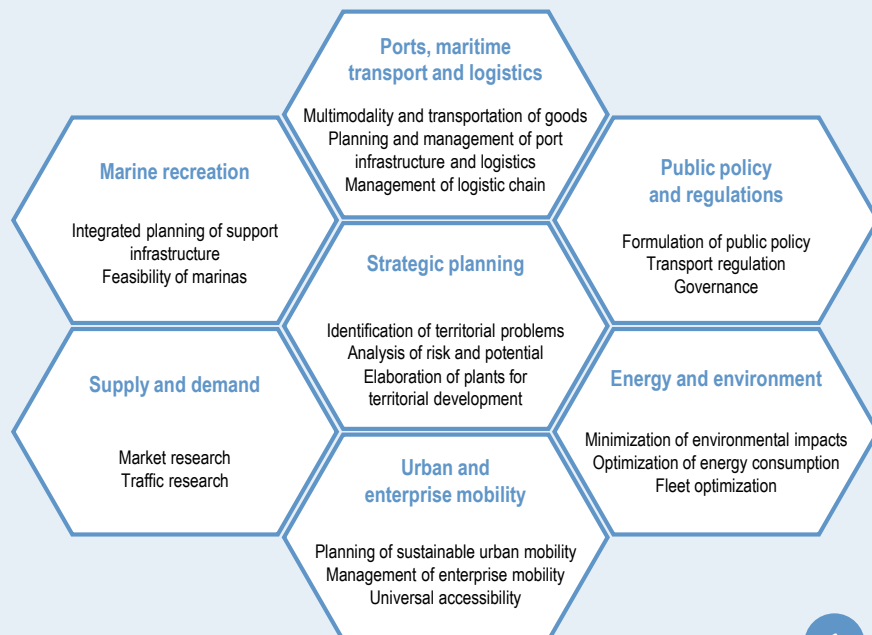

**Figueira de Sousa – Planeamento de Transportes e Mobilidade** is a consulting company aimed to deliver innovative and sustainable solutions in the field of transport (air, maritime and land transport) and mobility.

Figueira de Sousa – Planeamento de Transportes e Mobilidade unites highly qualified professionals whose knowledge allows to create comprehensive perception of various problems and propose specific solutions to them. Demanding of ourselves, we offer personalized approach to our clients, based on interaction and exchange of ideas.

Using existing knowledge and experience achieved in our work we aim to find innovative solutions responding to the requirements of each project in particular thus encouraging growth and success of our clients.

The core foundation of the company consists in vast technical knowledge of our multi-disciplinary team of consultants and external partners who have obtained rich experience in consulting in the course of their professional career.
